BOOK REVIEW

Excerpt from The National Herald, Sunday, June 27, 1965, Vol. 50, No. 17,868, New York, New York

"REVOLUTION AND DEFEAT" *

"Revolution and Defesit," unthough professor. D. George Kousoulas, of Howard University, Washington, D. C., is an extraordisary book. It is the stroy of the Communical Party of George covering fast distance periodic—(A) from 1920 through the Metanas distancing; (II) the period of resistance under enercy occupation (C) the period of resistance under enercy occupation (C) the period of resistance under servery occupation (C) the period of resistance under servery occupation (C) the states of the Party Dehthird the Into Cartain siders feferar. The introduction is supplied by the resistance of the Party Dehthird the Into Cartain siders feferar. The introduction is supplied by the period of the period of the Party of the Into Cartain Server (Const.) (Con

The first part - the least leaves to either Gorels or Americans - is truly a cutala raiser. The Illegal and deceptive activities of the Pairty, the differense posed by the Third Internationale, a Stalinias togen and the Pairty of the Control of the Control of the Control of Control of the Control of Control

The record of the period of resistance during enemy occupation would have been placed in better perspective had Professor Kousoulas consulted, in addition to British sources, American officers serving with the USAPBME during the years 1943 and 1944, the years of British action and communist reaction.

This review's way with the OS at USATER' in Calo in serry 1940. Each of the Bissus (5.1 + 5.0. - 6.0.) and contast with in Dittals contained (10.4, 6.5., exit, 60) and through a compact of the second and the Bistin algorithms of the second contained between the two services were finely rechanged. He was and the Bistin algorithms of the second contained between the two services were finely rechanged. He was also the second contained the second con

In the light of infessibles that assembled, It would appear that Professor Knobules' picture, Joseph all efforts as objective), in a bed, a high feilight. These came as two whose infinite betters, soon after its became related that filled's defect was investible, were not interested in Genetic Blaceston or even efficiency and the second of the second

The plethors of British bureaus and agents (whose numbers were such that they were literally stepping on the toes of each other) played Greek cabinet ministers (whose very subsistence depended on their salaries advanced by the British) one aginate another; one Greek General or Adniral against another; one gentilla group against another; all the way down and up the line everywhere — in Cairo, in Alexandria, in Athens, in the mountains. It happened that the EAM was the not numerous and effective meetilla constantation. Had

British Imperial interest.

it been the EDES under Napoleon Zervas instead, that, too, would have been undermined instead of being showered with sold sovereigns, unless it faithfully toed the British line. "Divide and Rule" was the nottol

The Third Round, or post-Varkiza developments. Here the book overlooks the provocations and the reign of Rightist tenor in kip and countryside with the countryson of the police and guidaments. Tenor was the daily ness — a fact this reviewer weiffed as late as 1950 and 1958 in an extensive trip thorugh the Poloponesus. Helmous crimes were committed while the government in Athens was "fronted" by honorable near such as Sofolialy, Plantinus and Versite/soft!

But the Bitlish, despite the fact that they were every battle over the Communist and the EAM, they lost the war. Whether this was due to the wearing down caused by the guerillas or the loss of their exclusive control over American supplies and gold is immaterial. They were forced out of Greece, the Stalin-Churchilli agreement notivitationaling.²

In the Spring of 1945 an event occurred that had a tentific inspect on the fortunes of Greece. The heart of the man who had made the flag and the seal of the United States twin symbols of justice, peace and freedom ceased to beat. The collateral effect of the death of F.D.R. was to embodden reactionaries not only in the U.S., but eventwhere, so that one could hear witnessees even at the San Francisco Conference whenever

The stipend was declined by King Constantine, the most "Greek" of all King George's descendants, as incompatible with his position as King of a Sovereign Nation.

²Churchill: "Triumph and Tragedy"

Molotov appeared intransigent that perhaps it would be best to settle accounts with the "other dictator, too" (Stalin). This probably explains Stalin's anxiety to liquidate the Greek revolution. ("The uprising Greeks mest be stopped, and as quickly as possible.")

Harry Truman, misreading during his early occupancy of the Presidential chair, reactionary opposition and hatred against F.D.R. as due to other reasons than struggle over State power, thought of appearing it by throwing New Dealers and liberals "to the wolves" and otherwise tolerating an "open season" against them. The political front composed of Progressive Democrats, Liberal intellectuals, Labor and minorities, marchine under the banner of "New Deal," was demoralized to such an extent that the Republicans won control of the United States Congress at the 1946 Congressional elections. When the United States resolved to openly intervene in Greece after British withdrawal, the revolution was doomed. Communist outpourings against the United States would not stick - even ignoring the fact that every fifth Greek family has relatives living in the United States - the emotional and cultural ties binding Greece to the United States were and are strong. The civil war then in progress might have been liquidated by negotiation had not McCarthyism - then ramount in the United States - inhibited such an approach. Nonetheless, Greek reactionaries, fearing that Paul Porter, President Truman's emissary to Greece, might find a way to terminate the fratricide through negotiation, threw effective monkey wenches into the works by arbitrarily preventing the timely issuance of a passnort to a Reserve U. S. Officer, a veteran of USAFINE who personally knew the guerilla leaders of Greece and might establish proper contact. The hero of this noble deed was the Military Aide to the President, playing the role of Mikado's Pooh Bah.4

In fact, the very opposite tools place under the descrite gale value of McCarthylon. The war was produced. From civil we became "International Communitate agrams," desgrate the first balls — the internationally-subloar-legac Communitat High Priest — was fighting on the sales of Transal. Through a compart of the communitation of the first positional ensured, was desired to McCarthylon. That is how the
"Transan Destricts" was now, noagongaring the compared to the Compare Specially delivered,

Transan Destricts" was now, noagongaring the cent of Codd Fax.

The U.S. domestic political dialogue soon discovered that "'poor Turkey," which played "footsies," with Hitler during the vise, was also "'menaced," and awarded the major part of the "All to Greece" program. From there the ararch proceeded mention on util every country bodering the Soviet Union was included, making this the hird attempt at containment of the Soviet Union." John Foster Dulles extended the principle to encompass the voltage.

The book will prove a treasure house for student and historian alike. It is bound to leave its mark -particularly is Greece.

George C. Vournas
