WASHINGTON, D.C. 20510

Dr. Nikolaos A. Stavrou Department of Political Science Howard University Washington, D. C. 20001

Dear Professor Stavrou:

Thank you for your letter of March 1, onclosing a copy of your protest to the Secretary of State expressing your dimmay over current developments in Greece and the recent violations of the telpins of Greek university students. I can well updoratand your deep concern and that of yourmacolifies.

These assure you that T will continue to watch developments in Greece closely, although I / must admit that I see little prospect that the Senate will be able to take any action that would have any affect on these developments.
