

Mr John Zighdis, Mr Papaligouras, former Ministers, and the Speaker of the last Greek Parliament, Mr Papaspirou, issued the following Statement

The resolution taken by the Parliamentary representatives of the member countries of NATO constitutes a clear and formal warning to our country.

Its meaning leaves no room for any misinterpretation whatsoever, neither can its importance be underestimated by anyone.

Following this Resolution, all we Greeks are brought face to face with our historic responsibilities. This, of course, applies above all to those who today happen to be in power.
